*Note: This policy does NOT include trip cancellation coverage. If you're interested in including trip cancellation, see the second asterisk on the page for more details and to obtain a quote. Two versions of trip cancellation are available. Trip Armor and Trip Armor+ which offers "cancel for any reason" coverage. Trip cancellation coverage will add anywhere from \$150 - \$250 (or more) to the cost of coverage depending upon the cost of your ticket and other factors. We have typically purchased the base coverage to provide primarily for medical evacuation should there be an emergency and the other coverages included with this plan. You will be responsible for any premium beyond the base premium if you wish to purchase trip cancellation coverage.
